■ RING IN THE NEW, RING OUT THE OLD

Fonebank is urging people who get a new phone this Christmas to recycle their old one. In a survey of 1,000 UK consumers, the mobile phone recycling company found that more than a third of people owned two unused mobiles and nearly one in five had three or more unused phones at home. The main reason for not recycling old mobiles was found to be laziness. However, old mobiles, especially **smartphones**, can bring in extra cash.
